7. Click **Download** for both the **installation executable** (.exe) and **Installation Guide** (.pdf)

Folders and Files

<u>Name</u>	<u>Actions</u>
 Parent Folder	
<input type="checkbox"/> Fiserv RangerForPanini v4.2.4.0-1.5.1.0_SCO2.exe	Download
<input type="checkbox"/> Installation Guide for Fiserv RangerForPanini.pdf	Download

9. Click **Save** - Save the installation executable (.exe) to your **Desktop**

10. When the download is complete locate the **Fiserv Icon on your desktop**, right click, and **Run as Administrator**.

Upload/Download Wizard for MOVEit

If prompted to Install or Allow an add-on MOVEit DMZ Upload/Download Wizard, click Install or Allow.

Note: Errors may be encountered when installing or downloading on the FTP site if the user is not an Administrator. Anti-virus applications may stop the download from completing correctly and may need to be disabled.

To install the Upload/Download Wizard:

1. Click Install the Upload/Download Wizard (ActiveX)

Note: If prompted to Install or Allow an add-on MOVEit DMZ Upload/Download Wizard, click Install or Allow.

Install the Upload/Download Wizard

It is recommended that you install the Upload/Download Wizard, a browser add-on that allows you to:

- Transfer files faster
- Transfer files greater than 2GB
- Transfer multiple files at once
- Perform automatic integrity checking to ensure file non-repudiation
- Compress/Uncompress data on the fly
- Add files via drag-and-drop

The ActiveX version of the Upload/Download Wizard requires Internet Explorer.

If you prefer, you may choose to install the [Java version](#) of the Upload/Download Wizard instead. Only one version is needed.

~ OR ~

- > [Disable the Wizard](#)
- > [Disable the Wizard \(for this session only\)](#)

 If you disable the Upload/Download Wizard or are unable to install it, you can re-enable or try re-installing through your My Account page.

2. Click Install
